-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

1. Applicant's election of Group I, claims 1-11, 34 and 35 in the reply filed on July 20, 2004 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).
2. Claims 12-33 withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on July 20, 2004.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
4. Claims 1-11 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1, lines 3-4, "the rules comprising one or more generic rules" is not clear in juxtaposition to each rule and the specification.

Claim 1, lines 3-4, "the product identifiers" and "non-numerical format" are not clear in juxtaposition the specification.

Claim Rejections - 35 USC § 103

5. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

6. Claims 1-11, 33 and 34, as understood, are rejected under 35 U.S.C. 103(a) as being unpatentable over Fassett Jr., US 6,532,481.

Fassett discloses an electronic commerce system comprising a global content directory including a product identifier via a registration menu, e.g. 160, for purchasing different product classes. Fassett does not specifically disclose a rule regarding duplicative product identifiers. However, as understood, the system of Fassett provides a mechanism for parsing identical products. Thus, to have provided a rule indicating a potential error in a seller database for Fassett would have been obvious to one of ordinary skill in the art. The motivation for having done such would have been to have provided multiple distinct products to have been available for purchase in the marketplace.

7. Further pertinent references of interest are noted on the attached PTO-892.

8. Applicant's July 24, 2003 and August 5, 2004 Information Disclosure Statements (IDS's) have been received. However, these IDS's have not been reviewed as no references were received with the IDS's.

It is noted that the sheer volume of the proposed IDS's are daunting. It is suggested Applicant point out the particular relevance of each reference in order to be reviewed diligently. Otherwise, a mere cursory review may result when the art is provided.
